PARAPAN® is offered as a homogenously colored material in 18mm thickness. Additionally, all PARAPAN® colors except 5297 anthracite are also offered in 4mm thickness. The 4mm thick sheets with their molded-in color show remarkable impact strength and are also suitable for simple installation in commercially available furniture profiles.

PARAPAN® 18 mm is supplied prefabricated, commissioned or in lots of agreed size. Fronts and doors made of PARAPAN® 18 mm are manufactured to order for specific designs, and supplied for example as a finished door ready for assembly (without hinges and handles), with finished edges.

The colors represented here by printing processes are not binding and may deviate from the actual shade of the material.
